Term Project – Milestone Four

Innovative EDucation (IED) will present their final product to their customers at UVU. Your presentation will include the following outlines.

- Software demo

- Requirement elicitation, elaboration, and specification

- Design and principle

- Organization

- Quality assurance and testing

- Apply software metrics in the whole process.

Deliverable

(1) (40 points) Power Point Slides and presentation

(2) (40 points) IED is using CCB (Configuration Control Board) to manage the development of UVSim. Please update all the document and submit in the final version. The updated document should include Use Case Diagram, Class Diagram, SRS (list of Functional Requirement), and Test Cases. All the configuration items with table of contents are in one document.

(3) (10 points) Backlogs and sprints,

(4) (10 points) Meeting logs and signed contribution form.
